Subject: Proposed Court Rule No. 2003-47		

To All Members of the Michigan Supreme Court:

I wish to voice my opposition to any change in our present law that would deprive citizens of their constitutional rights and deny asbestos disease victims of their rights to a jury trial.

The Michigan Constitution as well as the United States Constitution makes it clear that judges are not to make the law but rather interpret the law. Please remember that all of these people who are afflicted with asbestos are already victims. Do not add to their sorrows by allowing their rights to be taken away.

Working class citizens should be protected by our laws not punished because big business do not want to be accountable for their actions.

Thank You
Linda C. Thompson
